### IN A FEUD OVER A LINE FENCE.

One Person Killed and Five Others Wounded.

Abbeville, Ga., Feb. 2.—Bailiff W. H. Livingston was killed and five persons were wounded as the result of a feud over a line fence near Rhine. The wounded are M. A. Burnham, W. B. Bryant, W. T. Bryant, Tom Coffee and Mrs. Georgia Ray.

Livingston and one of the Bryants, it is alleged, attacked and seriously beat a son of M. A. Burnham last Friday. Burnham met Bryant the next day and thrashed him. When the aggrieved men and their relatives met Wednesday, shooting began. Mrs. Ray, a sister of the Bryants, rushed to the scene and was wounded by a stray bullet.

## CONCESSIONS TO STRIKERS.

St. Petersburg Manufacturers Contrib-  
ute Toward Ending Trouble.

St. Petersburg, Feb. 2.—The Association of St. Petersburg manufacturers has adopted the following resolutions:

"First—All points of the men's demands concerning the eight-hour day, participation of the men in fixing pay for piece work and regulation of the internal workings of factories, etc., shall not be discussed, but submitted to the minister of finance with a view to their settlement legislatively.

"Second—Regarding special demands advanced at the different works, discussion is inadvisable till the men have resumed work.

"Third—Recognizing that the men were drawn into the movement by other than economic causes, the association unanimously voted that no mutual bitterness exists, and has, therefore, decided to meet the workmen, not to apply the penalties for wasted time, not to endeavor to discover the instigators and leaders of the strike or to employ special measures against them, and to collect funds for the support of the families of the victims; and in this respect to make no difference between voluntary and coerced strikers.

"Fourth—The association, in order not to create a precedent by paying workmen for the time they have been engaged in the strike, will grant assistance to the necessitous which need not be repaid."

## RUSSIAN RULER PROMISES TO AMELIORATE CONDITION OF WORKMEN.

## ALL IS QUIET AT WARSAW.

Situation, However, Is Marked by Great Uncertainty.

Warsaw, Feb. 2.—Warsaw at present is quiet. Traffic and business have been partially resumed. The shops in the principal thoroughfares are still boarded up and but few soldiers are visible in the streets. Public and official confidence, however, is not restored and there is a degree of uncertainty regarding the situation. Thursday is the holiday of the Purification and demonstrations are feared. No settlement of the strike is expected before Feb. 5. It is certain that the strikers will not return to work before then. The most serious trouble of the police is with the hooligan element, which is responsible for the recent looting, the strikers remaining quiet.

St. Petersburg, Feb. 2.—Personal assurances of his intention to ameliorate the conditions and remove the causes, in so far as they are economic, which led to the recent strike, were delivered by Emperor Nicholas Wednesday to workingmen representing all the leading factories of St. Petersburg, who at his invitation journeyed to Tsarskoe Selo and were received in audience in the hall of the Alexander palace, where he has his winter residence.

This interview, face to face with their "little father," in whom their faith has not been shaken by the events of the bloody Sunday of Jan. 22, has had a far greater and more reassuring effect than any number of proclamations by ministers and governors general, and the workmen of St. Petersburg are now generally inclined to accept the promises of Governor General Trepoff and Finance Minister Kokosoff at their face value.

The gift of the imperial family of \$25,000 to aid the families of the victims of the conflict on Jan. 22 also has had an excellent effect and as the news slowly permeates the laboring classes of Russia it is expected that it will make them content to wait for the promised reforms.

Like a wave caused by the falling of a stone, the strike movement, however, is spreading over the great sea of Russian industrial life; and while St. Petersburg and Moscow, where the troubles began, are now placid, the workmen of Poland and other provinces are not yet calm, and the ripples have reached to far off Irkutsk and other Siberian towns.

Adopted Fatherly Tone.

Emperor Nicholas adopted the traditional fatherly tone in his talk with the workmen. He chided them for allowing themselves to be misled into engaging in a movement imperiling the internal order of Russia and aiding the foreign foe and for attempting to demand by force what he otherwise would be willing to do voluntarily. The workmen received the royal assurances of reform with cheers and after a lunch at the imperial table returned to St. Petersburg in the best of humor to report to their fellows, as enjoined, the words of his majesty. No attempt was made by them to present their desires, which already are sufficiently evident.

The action of the St. Petersburg manufacturers in placing themselves in the hands of the government in the matter of the adjustment of the main points of the dispute and to grant the men pay for the time they have been on strike, not as a matter of right but as a favor, and their contribution in aid of the sufferers among the families of their workmen, are expected to add to the prevailing good feeling.

The current gossip to the effect that Mr. Bouligan, formerly governor of Moscow, will succeed Prince Sviatopolk-Mirsky in the ministry of the interior, is another straw tending to confirm the surmise that Grand Duke Sergius is the dominant influence in the grand ducal faction. The appointment of General Trepoff to the governor generalship of St. Petersburg, and he was Sergius' nominee, narrowed the power of the minister of the interior, and, it is believed, precipitated Prince

Sviatopolk-Mirsky's resignation. That those who are posted should pick another Moscow man and a friend of Grand Duke Sergius to receive this portfolio indicates a growing appreciation of the influence of the emperor's uncle.

The most serious trouble of the police is with the hooligan element, which is responsible for the recent looting, the strikers remaining quiet.

British Pro-Consul Kueckahn, who was injured during the recent disturbances, has nearly recovered and is expected to leave the hospital next week.

Outside of Warsaw the strike movement appears to be growing, but while a great number of workmen are out at Loda not a single case of disorder has been reported there.

It is rumored that thousands of workmen in the extensive coal districts of Bambrova near the frontier will strike Thursday. This would be extremely serious as the mines would immediately be flooded if the pumping ceased.

Other reports coming in say that fresh strikes have broken out in the outlying districts but the rumors are not confirmed.

Libau, Feb. 2.—The governor on Wednesday received a deputation of strikers and urged them to return to work as precedent to securing any concessions. Street demonstrations have ceased. The strikers appear to be willing to resume work.

Kalisz, Poland, Feb. 2.—The mill employees struck Wednesday. The newspapers have suspended publication.

Saratoff, Feb. 2.—The railway workers have resumed their labors.

## TRANSFORMATION PROMISED.

Radical Changes Predicted in Russia by a Correspondent.

London, Feb. 2.—The St. Petersburg correspondent of the Telegraph wires:

"In a few days we shall witness a great political transformation scene. The captives who languish in the fortress of St. Peter and St. Paul will be released tomorrow, their misdeeds forgotten. The press will be allowed to speak freely. Trepoff will be sent to Manchuria and in ten days a brand new representative chamber will be created.

"Under the magic wand of Witte a new era of prosperity will begin for the Russian people. I am enabled to vouch for the accuracy of these facts."

The action of the St. Petersburg manufacturers in placing themselves in the hands of the government in the matter of the adjustment of the main points of the dispute and to grant the men pay for the time they have been on strike, not as a matter of right but as a favor, and their contribution in aid of the sufferers among the families of their workmen, are expected to add to the prevailing good feeling.

## SUFFERED WITH COLD

### RUSSIAN SOLDIERS ENDURED SEVERE HARSHIPS IN THE RECENT BATTLE.

### BLOOD FREEZE ON WOUNDS

### VICTIMS OF SHOT AND SHELL EX- PIRED QUICKLY UNLESS PROMPTLY AIDED.

Russian Headquarters, Huan Mountain, Feb. 2.—The five days' combat, which will go down in history as the battle of the Huan mountain, was fought out on a seemingly unending plain, which is broken only by southern Amethyst mountains around Yen-

Liaoyang tower of bloody memory. The bright glare of the sun reflected from the dazzling expanse of snow was painful to the eyes, and it was with difficulty that one could follow here and there black streaks marking the Russian columns or wavering skirmish lines dashing against what resembled dull gray rocks, but which in reality were the villages of Lidatoun and Tanlupus, the extensive hamlet of Sanlupus, bastioned by Chinese defenses and converted by the Japanese into veritable fortresses, surrounded with wire entanglements and earthworks. Exposed to the intense cold of a Manchurian winter the mounds of earth had become like granite and as impenetrable as steel.

For five days Russian soldiers hurled themselves against the defenses and field artillery pounded them until the frosty air reverberated with the thunder of cannon, the din of bursting shells and the rattle of musketry, but neither steel-pointed steel nor nickel bullets availed against the frozen earthworks. The gunners actually wept with despair at the impotence of the attack.

Stream of Shells Ineffective.

Mortar batteries came up at a gallop in the hope of demolishing the fortifications. Night and day the stream of shells was poured against the earthworks, but it had very little effect.

The men seemed indifferent to hunger or cold, although the temperature was of Arctic intensity. Their fingers, hands and feet were benumbed, while stinging snow and dust blinded them.

The slightest wound caused excruciating pain. Warm blood no sooner exuded from lacerated flesh than it began to freeze. The wounded could not be left exposed and if they did not receive attention in an hour they died.

The surgeons, their assistants and the men were handicapped in the bandaging of wounds, for they were obliged to wear leather gloves or mittens in order to resist the cold. The

men seemed to be again living the horrors of the winter campaign of 1812 against the Turks. Everything that could be done was done; but man was powerless in the face of nature which heaped tortures upon the troops and defeated the well thought out plan of the commander.

## CONCESSIONS FOR STRIKERS

MANUFACTURERS OF ST. PETERS-  
BURG HELPING TO END THE  
INTERNAL STRIFE.

Favorable results are expected to follow the audience given by Emperor Nicholas at Tsarskoe Selo to thirty-two workmen representing the leading industrial establishments of St. Petersburg. In addition to paternal admonitions bestowed upon the workmen, \$25,000 has been given by the emperor, the empress and the dowager empress for the relief of the families of those who were killed or wounded in the affair of Jan. 22.

The manufacturers of St. Petersburg have made concessions to the strikers and contributed to the relief fund. The situation in Poland and other of the provinces continues strained and strikes are reported from Irkutsk and several other Siberian towns.

The retirement of Prince Sviatopolk-Mirsky from the ministry of the interior has been accomplished in such a way as to indicate that the emperor is satisfied to be rid of a minister of the prince's avowed liberal tendencies. The forecast that Mr. Bouligan will be named for minister of the interior is construed as indicating a recognition of Grand Duke Sergius' predominant influence with his nephew, the emperor.

### TRIUMPH FOR JAP SURGEONS.

Only Forty Deaths From Disease in  
General Oku's Army.

General Oku's Headquarters, via  
Tientsin, Feb. 2.—Japanese field sur-  
geons and field hospitals have accom-  
plished a triumph according to statistics  
obtained from the chief surgeon of  
General Oku's army.

There have been in the entire army  
since the landing May 6, only 40 deaths  
from disease. The figures show that  
up to Dec. 1 there were treated 24,642  
cases of disease. Of these forty re-  
sulted fatally, 18,578 patients recovered,  
5,680 were sent to Japan and the  
remainder were undergoing treatment  
when the figures were compiled.

It is believed that these figures are  
unequalled in the history of warfare.

There were only 193 cases of ty-  
phoid and 342 of dysentery, while of  
the 20,237 missing—Officers, 4; men, 402.

Sixteen per cent of the wounded died;  
19 recovered in the field and 65 per  
cent were sent to Japan.

Eighty-five per cent of the wounds  
were inflicted by rifle shots; 8 per cent  
by artillery and 7 per cent by cold  
steel. The largest percentage of re-  
coveries was in the cases of chest  
wounds. Most of the recoveries were  
due to the small caliber rifle bullets.  
The percentage in other Japanese  
armies are about the same.

### TRAINS IN COLLISION.

IN A FEUD OVER A LINE FENCE.  
One Person Killed and Five Others  
Wounded.

Abbeville, Ga., Feb. 2.—Bailiff W. H. Livingston was killed and five persons were wounded as the result of a feud over a line fence near Rhine. The wounded are M. A. Burnham, W. E. Bryant, W. T. Bryant, Tom Coffee and Mrs. Georgia Ray.

Livingston and one of the Bryants, it is alleged, attacked and seriously beat a son of M. A. Burnham last Friday. Burnham met Bryant the next day and thrashed him. When the aggrieved men and their relatives met Wednesday, shooting began. Mrs. Ray, a sister of the Bryants, rushed to the scene and was wounded by a stray bullet.

### FAVORABLE RESULTS

EXPECTED TO FOLLOW AUDIENCE  
GIVEN BY THE CZAR TO THE  
WORKINGMEN.

### CONCESSIONS FOR STRIKERS

MANUFACTURERS OF ST. PETERS-  
BURG HELPING TO END THE  
INTERNAL STRIFE.

Favorable results are expected to follow the audience given by Emperor Nicholas at Tsarskoe Selo to thirty-two workmen representing the leading industrial establishments of St. Petersburg. In addition to paternal admonitions bestowed upon the workmen, \$25,000 has been given by the emperor, the empress and the dowager empress for the relief of the families of those who were killed or wounded in the affair of Jan. 22.

The manufacturers of St. Petersburg have made concessions to the strikers and contributed to the relief fund. The situation in Poland and other of the provinces continues strained and strikes are reported from Irkutsk and several other Siberian towns.

The retirement of Prince Sviatopolk-Mirsksy from the ministry of the interior has been accomplished in such a way as to indicate that the emperor is satisfied to be rid of a minister of the prince's avowed liberal tendencies. The forecast that Mr. Bouligan will be named for minister of the interior is construed as indicating a recognition of Grand Duke Sergius' predominant influence with his nephew, the emperor.

"Fourth—The association, in order not to create a precedent by paying workmen for the time they have been engaged in the strike, will grant assistance to the necessitous which need not be repaid."

### ALL IS QUIET AT WARSAW.

SITUATION, HOWEVER, IS MARKED BY  
GREAT UNCERTAINTY.

Warsaw, Feb. 2.—Warsaw at present is quiet. Traffic and business have been partially resumed. The shops in the principal thoroughfares are still boarded up and but few soldiers are visible in the streets. Public and official confidence, however, is not restored and there is a degree of uncertainty regarding the situation. Thursday is the holiday of the Purification and demonstrations are feared. No settlement of the strike is expected before Feb. 5. It is certain that the strikers will not return to work before then. The most serious trouble of the police is with the hooligan element, which is responsible for the recent looting, the strikers remaining quiet.

British Pro-Consul Kucukaln, who was injured during the recent disturbances, has nearly recovered and is expected to leave the hospital next week.

Outside of Warsaw the strike movement appears to be growing, but while a great number of workmen are out at Lodz not a single case of disorder has been reported there.

It is rumored that thousands of workmen in the extensive coal districts of Bambrova near the frontier will strike Thursday. This would be extremely serious as the mines would immediately be flooded if the pumping ceased.

Other reports coming in say that fresh strikes have broken out in the outlying districts but the rumors are not confirmed.

Libau, Feb. 2.—The governor on Wednesday received a deputation of strikers and urged them to return to work as precedent to securing any concessions. Street demonstrations have ceased. The strikers appear to be willing to resume work.

Kalisz, Poland, Feb. 2.—The mill employees struck Wednesday. The newspapers have suspended publication.

Saratoff, Feb. 2.—The railway workers have resumed their labors.

### TRANSFORMATION PROMISED.

Radical Changes Predicted in Russia  
by a Correspondent.

London, Feb. 2.—The St. Petersburg correspondent of the Telegraph wires: "In a few days we shall witness a great political transformation scene. The captives who languish in the fortress of St. Peter and St. Paul will be released tomorrow, their misdemeanors forgotten. The press will be allowed to speak freely. Trepoff will be sent to Manchuria and in ten days a brand new representative chamber will be created.

"Under the magic wand of Witte a new era of prosperity will begin for the Russian people. I am enabled to vouch for the accuracy of these facts."

Forecast—Fair with rising temperature. Temperature (Record kept by Dr. J. L. Camp for 24 hours ending at 3 o'clock this afternoon)—Maximum 10 above zero; minimum 34 below zero.

CANNON FALLS wants the state training school for girls located in that town.

An exchange notes that there is an epidemic of old age raging in the United States. More to be feared by the man afraid to die than the most fatal disease.

THE ground hog is supposed to have seen his shadow this morning and retired for another six weeks. The temperature this morning may tempt him to make it six months.

ACCORDING to a bill introduced in the legislature only total abstainers are to be allowed to practice chiropractic in Minnesota. Just why this class of people are singled out is not stated.

ST. CLOUD wants an appropriation of \$30,000 for a "model school building" and Duluth \$35,000 for the erection of a dormitory. The normal board favors the appropriation for the expenditure in both cases.

MINNESOTA is almost free from debt now, she owes less than a million, and while the amount would be a burden for some of us newspaper men to handle the state is paying it off at the rate of \$150,000 a year and in a very short time the state will be absolutely free from all indebtedness.

S. P. FULLER of Little Falls, father of W. M. Fuller of the Transcript, died suddenly at his home in that city on Tuesday at the advanced age of 73 years. Deceased had resided in Little Falls since 1856 and had always taken an interest in the welfare of the community. He was universally respected for his splendid traits of character and his death removes one of the early pioneers of Northern Minnesota. The Dispatch extends its sincere sympathy to Bro. Fuller in his hour of sorrow.

Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using Foley's Honey and Tar.

## The Hawaiian Death Prayer.

Upon the minds of such a people as the Hawaiians were, while under their ancient form of religion, it was but natural that superstition should gain a rooted hold. The most curious and effective belief to which they were made subject was that a man can be prayed to death, a belief that survives among the natives to the present day. For the success of the tragical death prayer it was necessary to obtain some hair or a piece of finger nail of the intended victim. A priest was then employed to use incantation and prayer for his destruction. Always informed of the doom that the priest was invoking upon him, the victim generally pined away and died.

There is a story that an Englishman in the service of Kamehameha I, having incurred the displeasure of a priest, the latter proceeded to "remove" him by the death prayer process. The Anglo-Saxon, however, set up an opposition altar in derision and jokingly proclaimed that he intended to pray the priest to death. Alarmed at the threat and overwhelmed at the failure of his own incantations, the sorcerer died, proving by his death his faith in his religion.

## The Social Capital.

We do not think that either Washington or New York or any other city will ever become the social capital of the United States as London is the social capital of Great Britain. Washington will come much nearer to it than it does at present, but the country is too big to have a social capital. Hordes of people will come to New York to make money, to amuse themselves, to study, to live their lives in the least restricted atmosphere that the country offers, but only very rich people will come here to find and occupy a place in organized society. Pleasant people will always find pleasant playmates here. There is no lack of good company for everybody that is companionable. But the charm of New York for people who still live elsewhere is not in its society, but in its shops and shows, its sunshine, its eating and its drinking. It is pleasant. It grows finer every day. When it is finished it will be a marvelous city, but hardly the social capital of the country.—Harper's Weekly.

Attorney L. T. Chamberlain, of St. Paul, arrived in the city this afternoon on legal business.

Rev. William Fletcher, of Aitkin, passed through the city this afternoon en route to the twin cities.

Harry L. Wyand, traveling passenger agent of the Maple Leaf route, was in the city today on business.

Conductor Collins came up in charge of No. 5 today taking the place of Conductor Corcoran who is taking a few days rest.

E. D. Hughes, of Minneapolis, arrived in the city this afternoon for a few days' visit with his brother, John Hughes, of East Brainerd.

The Ladies' Aid society of the Presbyterian church will meet with Mrs. Palm, S. Broadway on Wednesday afternoon, Feb. 8th.

There will be a meeting tonight of the members of Brainerd Lodge, B. P. O. E., and a good attendance is desired as there will be a class of initiates.

The meeting of the Bachelor Maids will be held at the home of Miss Ella Mitchell on Friday afternoon. All members are requested to be present.

L. B. Grindley, who has been a special apprentice at the N. P. shops in this city, left this afternoon for Pittsburgh, Pa., where he will still work for the company inspecting.

A personal item that escaped THE DISPATCH reporter was the return of Mrs. Henry L. Cohen from Chicago, on Tuesday noon, where she had been called by the serious illness and death of her sister, Miss Schoenemann.

The state Y. M. C. A. convention will be held at Duluth from the 9th to the 12th inclusive and any who intend going there at that time should leave their names with Secretary Flickwir, of the local Y. M. C. A. There will be a fare and one-third on the railroad.

The Port Orford, (Oregon) Tribune of last week says: "There is an abundance of water. Miners are busy and happy, and this winter the placers on the Sixes river, will probably yield a larger output than at any time since the first year of their discovery—fifty years ago." The Big Jewel mine in which so many Brainerd people are interested is located on this river.

## A Grim Tragedy

is daily enacted in thousands of homes, as Death claims in each one another victim of consumption or pneumonia. But when coughs and colds are properly treated the tragedy is averted. F. G. Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house.

## The Knowledge That Pays.

If you glance round at the work of some of our big men you will be surprised to see how many have made their reputation by doing one small thing, but doing it well. If a man gets to the front in one narrow subject the world credits him with knowledge of all the rest. It is, however, even easier to acquire a large general knowledge than an advanced special knowledge of one narrow subject. The specialty must not be too narrow either. It is often said that the pursuit of knowledge has a nobility of its own. But what knowledge? No knowledge is worth obtaining for its own or any other sake unless it is or will probably be useful to man.—James Swinburne in Electrical Review.

## VILLAGES IN THE DARK.

### Japanese Settlements Amid Dense Groves of Evergreens.

Without having actually seen them you cannot imagine how dark some Japanese country villages remain, even in the brightest and hottest weather. In the neighborhood of Tokyo itself there are many villages of this kind. At a short distance from such a settlement you see no houses; nothing is visible but a dense grove of evergreen trees.

The grove, which is usually composed of young cedars and bamboos, serves to shelter the village from storms and also to supply timber for various purposes. So closely are the trees planted that there is no room to pass between the trunks of them; they stand straight as masts and mingle their crests so as to form a roof that excludes the sun. Each thatched cottage occupies a clear space in the plantation, the trees forming a fence about it double the height of the building. Under the trees it is always twilight, even at high noon, and the houses, morning and evening, are half in shadow. What makes the first impression of such a village almost disquieting is not the transparent gloom, which has a certain weird charm of its own, but the stillness.

There may be fifty or a hundred dwellings, but you see nobody and hear no sound but the twitter of invisible birds, the occasional crowing of cocks and the shrilling cicadas. Even the cicadas find these groves too dim and sing faintly. Being sun lovers, they prefer the trees outside the village. I forgot to say that you may sometimes hear a viewless shuttle—chaka-ton, chaka-ton—but that familiar sound in the great green silence seems an elfish happening. The reason of the hush is simply that the people are not at home. All the adults have gone to the neighboring fields, the women carrying their babies on their backs, and most of the children have gone to the nearest school, perhaps not less than a mile away.—Atlantic.

## CATCHING COLD.

### The Way This is Aided by Improper Methods of Feeding.

The really important question is, In what does predisposition consist? We talk of a man "catching a cold." But it would be more correct and equally graphic to say that the cold has "caught" the man, for it does catch him unawares and often when he least anticipates it. But no cold ever caught any man unless he had first prepared the ground for it by a careful process of fertilization.

No amount of mere exposure to a low temperature alone will cause a "cold" in a perfectly healthy man in whom the product of wear and tear of nerve and muscle with adequate exertion of waste products on the one side is evenly balanced by food supply and exercise on the other. Where this equilibrium does not exist such exposure then operates as a "chill."

Now, who are the people who are liable to catch cold? Not those whose dietary is so carefully adjusted to the work they have to do that there is no opportunity for the accumulation of unused foodstuffs in their tissues, but those who in the better fed ranks of society eat and drink more than they need to meet the daily requirements of their bodily activity and are thus continually storing up in their tissues and excreting organs material which if appropriately used would form valuable ammunition for the development of energy either of body or mind, but which when stored beyond a certain point has to be blown off in a "cold" or a "billious attack" or in a more pronounced fit of gout.—Dr. Francis T. Bond, a London Expert.

## Hearts Attuned to Joy.

There is a lot of fun in the world if we keep our fun eyes open and our hearts attuned to joy. Did you ever note how your very soul lighted and buoyed by the mere mental turning of self to the gladness side? Teach your thoughts to run in a channel bathed in the sunlight of good cheer. Dwell upon the flowers that grow beside the road rather than the dust upon the turnpike. Laughter and good cheer lighten many a burden and make the tedious way a ramble in a woodland path. Wake up to the delightfulness of the birds' sweet melodies. Sing as you travel on your way, and God's eternal morning will dawn upon you when life's tempestuous voyage will for you have ended.—Liberty (Tex.) Vindicator.

## The Spell of the Theater.

The glamour of the stage! No one can define it or explain it; no one who has fallen under its spell can resist it. You see it at work in the great artist who, confident of success, already crowned with laurels, comes daily down to rehearsal with the zest and buoyancy of youth. Satiety does not touch him; a blase actor is an unheard of anomaly. A man may act for twenty, thirty, forty years, and if he is struck with illness his one lament is that he can act no more.—George Alexander in Pelican.

## YIELDED NO PALPABLE RESULT.

Battle on the Hun River Only Sweled the Casualty List.

Russian Headquarters, Huan Mountain, Feb. 2.—The five-days' battle on the Hun river has yielded no palpable result, both sides maintaining their former positions, though it is true that at heavy cost the Russians succeeded in driving the Japanese out of their advanced positions and repelling their flanking column. The Russian cavalry proved extremely efficient. There is again a lull in the campaign, and it is possible that military operations will be suspended until the end of February.

## LADIES' AUXILIARY ENTERTAINS

An Excellent Program Rendered in Columbian Hall Last Night Followed by Dancing—Large Crowd Present.

The Ladies' Auxiliary of the A. O. H. entertained a very large number of their friends in Columbian hall last night. A very good program had been prepared for the event, consisting of vocal and instrumental numbers, a recitation and some pretty dancing.

Mrs. M. J. Reilly presided over the deliberations and when the assemblage was called to order every seat in the hall was taken. The first number was a piano solo by Miss Emily Quinn. This was followed by a well rendered recitation by Miss Mayme Bolin. A very interesting number was the dancing of Master Werner Hemstead and Little Miss Madeline Murphy. They had the regulation Scottish costumes with kilts and all and gave the highland fling in a very acceptable manner. Mr. and Mrs. J. P. Early were heard to good advantage in a vocal duet and Joe Murphy, whose singing is always a feature of a program, was also heard. Miss Daisy Cawley rendered a piano solo and Mrs. D. M. Clark and Miss Georgie Horn a piano duet, both numbers being well received. Little Miss Kathleen Graham sang beautifully as usual and won a round of applause. The program closed with a song by the young ladies' sextette, a charming number.

Dancing was then indulged in until a late hour and all voted the members of the ladies' auxiliary capital entertainers.

Foley's Honey and Tar cures the cough caused by attack of la grippe. It heals the lungs.

## Could Be Happy If We Wished.

If in a less fortunate time than ours, when the resources of mind and body were less varied and plentiful than they are now, men and women took delight in life, warmed both hands at its fire and filled their hearts with joy and gladness, may we not conclude that they were happy simply because they lived, as we might, in the right way, and put to their right uses that which was provided for them?—Christian Register.

"Neglected colds make fat graveyards." Dr. Wood's Norway Pine Syrup helps men and women to a happy, vigorous old age.

## A Funny Acrobat.

No two leaps of the tarpon are quite alike. As the tarpon comes out into his jaws distend, his gills flap open, and the mullet bait flies out across the water for a hundred feet, while he retches at the hook, shaking his head angrily from side to side, like a horse that fights his bit. In midflight he will turn and cut into the stream with a head on dive that makes a perfect cleavage of the whitened water. His next emergence may be a back somersault and his third a long distance jump with no height to it, but a substantial gain in feet. With infinite spirit he will continue his play until absolutely worn out, when the spring and somersaulting lapse into a long, rolling stroke from side to side, showing the two foot dorsal filament, which waves and floats out behind, like some independent water creature.—Country Life in America.

## Time to Begin.

Are you doing as much to brighten this world as a single sunbeam does? Are you scattering as much fragrance in the lives about you as is shed by one little violet? Do you refresh tired hearts as a drop of rain refreshes a drooping plant? If not, it is time to begin.—Detroit Free Press.

Be ignorance thy choicer where knowledge leads to woe.—Beattie.

L. B. Grindley, who has been a special apprentice at the N. P. shops in this city, left this afternoon for Pittsburgh, Pa., where he will still work for the company inspecting.

A personal item that escaped THE DISPATCH reporter was the return of Mrs. Henry I. Cohen from Chicago, on Tuesday noon, where she had been called by the serious illness and death of her sister, Miss Schoenmann.

The state Y. M. C. A. convention will be held at Duluth from the 9th to the 12th inclusive and any who intend going there at that time should leave their names with Secretary Flickwir, of the local Y. M. C. A. There will be a fare and one-third on the railroad.

The Port Orford, (Oregon) Tribune of last week says: "There is an abundance of water. Miners are busy and happy, and this winter the placers on the Sixes river, will probably yield a larger output than at any time since the first year of their discovery—fifty years ago." The Big Jewel mine in which so many Brainerd people are interested is located on this river.

### A Grim Tragedy

is daily enacted in thousands of homes, as Death claims in each one another victim of consumption or pneumonia. But when coughs and colds are properly treated the tragedy is averted. F. G. Huntley, of Oakland, Ind., writes: "My wife had the consumption and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, coughs and colds which cured her and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50¢ and \$1.00 by H. P. Dunn & Co., druggists. Trial bottle free.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house.

The Knowledge That Pays.

If you glance round at the work of some of our big men you will be surprised to see how many have made their reputation by doing one small thing, but doing it well. If a man gets to the front in one narrow subject the world credits him with knowledge of all the rest. It is, however, even easier to acquire a large general knowledge than an advanced special knowledge of one narrow subject. The specialty must not be too narrow either. It is often said that the pursuit of knowledge has a nobility of its own. But what knowledge? No knowledge is worth obtaining for its own or any other sake unless it is or will probably be useful to man.—James Swinburne in Electrical Review.

"Every precaution?"

"Yes; they boiled the water."

## VILLAGES IN THE DARK.

### Japanese Settlements Amid Dense Groves of Evergreens.

Without having actually seen them you cannot imagine how dark some Japanese country villages remain, even in the brightest and hottest weather. In the neighborhood of Tokyo itself there are many villages of this kind. At a short distance from such a settlement you see no houses; nothing is visible but a dense grove of evergreen trees.

The grove, which is usually composed of young cedars and bamboos, serves to shelter the village from storms and also to supply timber for various purposes. So closely are the trees planted that there is no room to pass between the trunks of them; they stand straight as masts and mingle their crests so as to form a roof that excludes the sun. Each thatched cottage occupies a clear space in the plantation, the trees forming a fence about it double the height of the building. Under the trees it is always twilight, even at high noon, and the houses, morning and evening, are half in shadow. What makes the first impression of such a village almost disquieting is not the transparent gloom, which has a certain weird charm of its own, but the stillness.

There may be fifty or a hundred dwellings, but you see nobody and hear no sound but the twitter of invisible birds, the occasional crowing of cocks and the shrilling cicadas. Even the cicadas find these groves too dim and sing faintly. Being sun lovers, they prefer the trees outside the village. I forgot to say that you may sometimes hear a vulture's shuttle-chaka-ton, chaka-ton—but that familiar sound in the great green silence seems an elfish happening. The reason of the hush is simply that the people are not at home. All the adults have gone to the neighboring fields, the women carrying their babies on their backs, and most of the children have gone to the nearest school, perhaps not less than a mile away.—Atlantic.

### CATCHING COLD.

#### The Way This Is Aided by Improper Methods of Feeding.

The really important question is, In what does predisposition consist? We talk of a man "catching a cold." But it would be more correct and equally graphic to say that the cold has "caught" the man, for it does catch him unawares and often when he least anticipates it. But no cold ever caught any man unless he had first prepared the ground for it by a careful process of fertilization.

No amount of mere exposure to a low temperature alone will cause a "cold" in a perfectly healthy man in whom the product of wear and tear of nerve and muscle with adequate excretion of waste products on the one side is evenly balanced by food supply and exercise on the other. Where this equilibrium does not exist such exposure then operates as a "chill."

Now, who are the people who are liable to catch cold? Not those whose diet is so carefully adjusted to the work they have to do that there is no opportunity for the accumulation of unused foodstuffs in their tissues, but those who in the better fed ranks of society eat and drink more than they need to meet the daily requirements of their bodily activity and are thus continually storing up in their tissues and exerting organs material which if appropriately used would form valuable ammunition for the development of energy either of body or mind, but which when stored beyond a certain point has to be blown off in a "cold" or a "bilious attack" or in a more pronounced fit of gout.—Dr. Francis T. Bond, a London Expert.

### Hearts Attuned to Joy.

There is a lot of fun in the world if we keep our fun eyes open and our hearts attuned to joy. Did you ever note how your very soul lighted and buoyed by the mere mental turning of self to the gladsome side? Teach your thoughts to run in a channel bathed in the sunlight of good cheer. Dwell upon the flowers that grow beside the road rather than the dust upon the turnpike. Laughter and good cheer lighten many a burden and make the tedious way a ramble in a woodland path. Wake up to the delightfulness of the birds' sweet melodies. Sing as you travel on your way, and God's eternal morning will dawn upon you when life's tempestuous voyage will for you have ended.—Liberty (Tex.) Vindicator.

### The Spell of the Theater.

The glamour of the stage! No one can define it or explain it; no one who has fallen under its spell can resist it. You see it at work in the great artist who, confident of success, already crowned with laurels, comes daily down to rehearsal with the zest and buoyancy of youth. Satiety does not touch him; a blasphemous actor is an unheard of anomaly. A man may act for twenty, thirty, forty years, and if he is stricken with illness his one lament is that he can act no more.—George Alexander in Pelican.

### YIELDED NO PALPABLE RESULT.

Battle on the Hun River Only Swelled the Casualty List.

Russian Headquarters, Huan Mountain, Feb. 2.—The five-days' battle on the Hun river has yielded no palpable result, both sides maintaining their former positions, though it is true that at heavy cost the Russians succeeded in driving the Japanese out of their advanced positions and repelling their flanking column. The Russian cavalry proved extremely efficient. There is again a lull in the campaign, and it is possible that military operations will be suspended until the end of February.

## LADIES' AUXILIARY ENTERTAINS

### An Excellent Program Rendered in Columbian Hall Last Night Followed by Dancing—Large Crowd Present.

The Ladies' Auxiliary of the A. O. H. entertained a very large number of their friends in Columbian hall last night. A very good program had been prepared for the event, consisting of vocal and instrumental numbers, a recitation and some pretty dancing.

Mrs. M. J. Reilly presided over the deliberations and when the assemblage was called to order every seat in the hall was taken. The first number was a piano solo by Miss Emily Quinn. This was followed by a well rendered recitation by Miss Mayme Bolin. A very interesting number was the dancing of Master Werner Hemstead and Little Miss Madeline Murphy. They had the regulation Scottish costumes with kilts and all and gave the highland fling in a very acceptable manner. Mr. and Mrs. J. P. Early were heard to good advantage in a vocal duet and Joe Murphy, whose singing is always a feature on a program, was also heard. Miss Daisy Cawley rendered a piano solo and Mrs. D. M. Clark and Miss Georgia Horn a piano duet, both numbers being well received. Little Miss Kathleen Graham sang beautifully as usual and won a round of applause. The program closed with a song by the young ladies' sextette, a charming number.

Dancing was then indulged in until a late hour and all voted the members of the ladies' auxiliary capital entertainers.

Foley's Honey and Tar cures the cough caused by attack of la grippe. It heals the lungs.

### Could Be Happy if We Wished.

If in a less fortunate time ours, when the resources of mind and body were less varied and plentiful than they are now, men and women took delight in life, warmed both hands at its fire and filled their hearts with joy and gladness, may we not conclude that they were happy simply because they lived, as we might, in the right way, and put to their right uses that which was provided for them?—Christian Register.

"Neglected colds make fat graveyards." Dr. Wood's Norway Pine Syrup helps men and women to a happy, vigorous old age.

### A Funny Acrobat.

No two leaps of the tarpon are quite alike. As the tarpon comes out into the day his jaws distend, his gills flap open, and the mullet bait flies out across the water for a hundred feet, while he retches at the hook, shaking his head angrily from side to side, like a horse that fights his bit. In midflight he will turn and cut into the stream with a head on dive that makes a perfect cleavage of the whitened water. His next emergence may be a back somersault and his third a long distance jump with no height to it, but a substantial gain in feet. With infinite spirit he will continue his play until absolutely worn out, when the spring and somersaulting lunge into a long, rolling stroke from side to side, showing the two foot dorsal filament, which waves and floats out behind, like some independent water creature.—Country Life in America.

### Time to Begin.

Are you doing as much to brighten this world as a single sunbeam does? Are you scattering as much fragrance in the lives about you as is shed by one little violet? Do you refresh tired hearts as a drop of rain refreshes a drooping plant? If not, it is time to begin.—Detroit Free Press.

Be ignorant thy choice where knowledge leads to woe.—Beattie.

### Weather

Forecast—Fair with rising temperature.

Temperature (Record kept by Dr. J. L. Camp for 24 hours ending at 3 o'clock this afternoon)—Maximum 10 above zero; minimum 34 below zero.

CANNON FALLS wants the state training school for girls located in that town.

An exchange notes that there is an epidemic of old age raging in the United States. More to be feared by the man afraid to die than the most fatal disease.

THE ground hog is supposed to have seen his shadow this morning and retired for another six weeks. The temperature this morning may tempt him to make it six months.

ACCORDING to a bill introduced in the legislature only total abstainers are to be allowed to practice chiropractic in Minnesota. Just why this class of people are singled out is not stated.

ST. CLOUD wants an appropriation of \$30,000 for a "model school building" and Duluth \$35,000 for the erection of a dormitory. The normal board favors the appropriation for the expenditure in both cases.

MINNESOTA is almost free from debt now, she owes less than a million, and while the amount would be a burden for some of us newspaper men to handle the state is paying it off at the rate of \$150,000 a year and in a very short time the state will be absolutely free from all indebtedness.

S. P. FULLER of Little Falls, father of W. M. Fuller of the Transcript, died suddenly at his home in that city on Tuesday at the advanced age of 73 years. Deceased had resided in Little Falls since 1856 and had always taken an interest in the welfare of the community. He was universally respected for his splendid traits of character and his death removes one of the early pioneers of Northern Minnesota. This DISPATCH extends its sincere sympathy to Bro. Fuller in his hour of sorrow.

Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using Foley's Honey and Tar.

**The Hawaiian Death Prayer.**

Upon the minds of such a people as the Hawaiians were, while under their ancient form of religion, it was but natural that superstition should gain a rooted hold. The most curious and effective belief to which they were made subject was that a man can be prayed to death, a belief that survives among the natives to the present day. For the success of the tragical death prayer it was necessary to obtain some hair or a piece of finger nail of the intended victim. A priest was then employed to use incantation and prayer for his destruction. Always informed of the doom that the priest was invoking upon him, the victim generally pined away and died.

There is a story that an Englishman in the service of Kamehameha I, having incurred the displeasure of a priest, the latter proceeded to "remove" him by the death prayer process. The Anglo-Saxon, however, set up an opposition altar in derision and jokingly proclaimed that he intended to pray the priest to death. Alarmed at the threat and overwhelmed at the failure of his own incantations, the sorcerer died, proving by his death his faith in his religion.

**The Social Capital.**

We do not think that either Washington or New York or any other city will ever become the social capital of the United States as London is the social capital of Great Britain. Washington will come much nearer to it than it does at present, but the country is too big to have a social capital. Hordes of people will come to New York to make money, to amuse themselves, to study, to live their lives in the least restricted atmosphere that the country offers, but only very rich people will come here to find and occupy place in organized society. Pleasant people will always find pleasant playmates here. There is no lack of good company for everybody that is companionable. But the charm of New York for people who still live elsewhere is not in its society, but in its shops and shows, its sunshine, its eating and its drinking. It is pleasant. It grows finer every day. When it is finished it will be a marvelous city, but hardly the social capital of the country.—Harper's Weekly.

"Tisn't safe to be a day without Dr. Thomas' Electric Oil in the house. Never can tell what moment an accident is going to happen.

The DISPATCH will be delivered at your door for 40 cents per month.

## ANOTHER RATHER SERIOUS FIRE

Plumbing Shop of Louis Sherlund  
Badly Damaged by Fire at an Early Hour

## CARRIED VERY GOOD INSURANCE

Building was a Small Frame Structure and was Valued for not Over \$600.

With mercury way down the scale and a stiff northwest wind blowing, coupled with the fact that the members of the Brainerd fire department had been fighting fire for the last two days, the sound of the alarm this morning about 1:30 o'clock did not sound very well. An alarm was turned in from the National hotel, fire having been discovered to the rear of the L. W. Sherlund plumbing shop across the street.

The firemen responded quickly, but owing to the fact that one of the hydrants closest to the fire was frozen it was several minutes before any water could be secured. If it had not been for this fact it is thought that the fire would not have done the damage it did. The building in which the fire occurred is a frame structure one and one-half stories high and consequently the flames found easy picking in the inflammable material. The fire caught in the back room of the small building used as a work room and Mr. Sherlund states that he cannot account for its origin, for he claims that there was no fire in the stove in that room or in the front room where most of the stock was kept.

The fire burned upward and did more damage on top of the building, burning through the ceiling and the roof, than it did on the first floor where most of the stock was located. In the garret or half-story there were stored a lot of bicycles left for repair, and most of these were totally destroyed. The loss on the building is not total, for in the show room on the first floor there was but little damage except from water.

The building is owned by Cashier F. A. Farrar, of the First National, and was estimated to be worth about \$600. He carried \$300 insurance. It is thought that the total stock carried by Mr. Sherlund, including all material and tools, amounted to something like \$2,500 or \$3,000. The loss will not be total on this stock, for there are a great many things which were but slightly damaged. It would be hard to fix the loss on such a stock.

Mr. Sherlund's stock and fixtures were insured for a total of \$2,100. The firm of Keen & McFadden had in their companies \$600 on the stock and \$200 on tools and fixtures. R. G. Vallertye's companies had \$1,000 on stock and \$300 on tools and fixtures. The building was insured for \$300 in one of R. G. Valentine's company's. It is thought that with what salvage there is from the material and tools Mr. Sherlund will not be much of a loser.

There was another alarm sent in about 6 o'clock in the morning and the firemen commenced to think that it was one continual round of pleasure. This time the alarm came from the Globe hotel. It seems that the cook started to light the fire with gasoline, but he did not make much headway, for the flames flared up and caught his apron and in a minute he was all ablaze. The fire was put out by the use of a pail of water and the fire department did not have to come out at all. There was no damage.

### Mrs. De Wolf Tonight.

The concert at the First Congregational church tonight by the great soprano, Mrs. Jessica De Wolf, will be a great treat. Mrs. De Wolf comes to Brainerd under the auspices of the Brainerd Ladies' Musical club and enough is known of her reputation as an artist in this city to insure a good attendance, if the people are anxious to hear something good. The lady has her own accompanist with her and the program she renders tonight is of the high class order and should not be missed. The tickets are but 50 cents each.

Comforts the heart, strengthens the mind. Is good ill or well. Makes the face bright as the summer morn. That's what Hollister's Rocky Mountain Tea will do. Cures when all else fails. 35 cents. H. P. Dunn & Co.

### Stole Shoes.

James Kellen was arrested charged with stealing some of the shoes from the ruins of the R. F. Walters shoe store and was fined \$10 this morning in Judge Warner's court. In default of the fine he was sent to jail for ten days.

## TRANSCRIPT CLAIMS TO KNOW

That Definite Information Has Been Received to Effect that Nos. 5 and 6 will

Run Over Cut-off After March 1.

Tuesday's Little Falls Transcript says: Word was received from St. Paul Tuesday that a change in the train schedule would be made about March 1. No change will be made in the schedule of the branch passenger, but Nos. 5 and 6 will run over the cut-off to Staples, instead of around by Brainerd, and the Minnesota & International locals will run through Brainerd to Little Falls.

The change will be of great advantage to people who live at small stations on the cut-off as their only mode of travel now is on the way freights. It will also make two trains a day at this station making twenty passenger trains every twenty-four hours.

Nothing more has been learned about

making Wadena and Little Falls division points, but the roadmaster has received blue prints of extensive additions to be made in the railroad yards here

and that looks encouraging.

When in want of anything in my line do not forget that I have opened up in Swartz' drug store.

## ARRESTED ON SERIOUS CHARGE

Walter Brandt Taken Into Custody Charged With Attempted Rape January 25

## ON YOUNG THIRTEEN-YEAR OLD

Daughter of Joseph Webber While She Was Walking Alone East of Here

Walter Brandt, claiming to be but 16 years of age, was in the municipal court this morning before Judge Warner charged with the serious crime of attempted rape on the person of Annie Webber, the thirteen-year old daughter of Mr. and Mrs. Joseph Webber, living in the country east of here.

The complaint alleges that the young man committed the felony January 25th while the young girl was walking along the road alone. The young man is quite well known here and the girl's parents are also very well known.

Young Brandt waived examination and was held to the grand jury.

Those turning out this evening to hear Mrs. DeWolf at the First Congregational church will be amply repaid for their trouble as a fine program of nineteen numbers will be given. Tickets only 50 cents each.

Russians Continue Effort to Capture Position From Japs.

St. Petersburg, Feb. 2.—From the reports of the general staff it is not clear yet whether the fighting on the Hun river is ended. The Russians continue the bombardment of Sandepas and apparently a strong force of Russians is between Sandepas and Shakesepu to check the Japanese, who seem to be trying to use their former turning movement across the Hun river.

Nothing further has been heard of the Russian movement against the Japanese right.

## ANOTHER RATHER SERIOUS FIRE

Plumbing Shop of Louis Sherlund  
Badly Damaged by Fire at an Early Hour

CARRIED VERY GOOD INSURANCE

Building was a Small Frame Structure and was Valued for not Over \$600.

With mercury way down the scale and a stiff northwest wind blowing, coupled with the fact that the members of the Brainerd fire department had been fighting fire for the last two days, the sound of the alarm this morning about 1:30 o'clock did not sound very well. An alarm was turned in from the National hotel, fire having been discovered to the rear of the L. W. Sherlund plumbing shop across the street.

The firemen responded quickly, but owing to the fact that one of the hydrants closest to the fire was frozen it was several minutes before any water could be secured. If it had not been for this fact it is thought that the fire would not have done the damage it did. The building in which the fire occurred is a frame structure one and one-half stories high and consequently the flames found easy picking in the inflammable material. # TEN WOMEN KILLED

SLEIGHING PARTY STRUCK BY A LOCOMOTIVE AT NIGHT NEAR ARKPORT, N. Y.

# NOT AN OCCUPANT ESCAPES

ALL OF THOSE IN THE VEHICLE ARE EITHER KILLED OR ARE BADLY INJURED.

Hornellsville, N. Y., Feb. 2.—A sleighing party from the Universalist church of Hornellsville was struck by a locomotive near Arkport Wednesday evening. Ten occupants of the sleigh were killed and all the rest were seriously injured. All the dead and injured are matrons. The dead are: Mrs. Mary Gillette, Mrs. Charles Thomas, Mrs. Eugene Shaw, Mrs. Joseph Hallett, Mrs. C. C. Graves, Mrs. Bert Moore, Mrs. Ruth Patchen and Mrs. F. Boughton, Mrs. J. Coates and Mrs. Fred Green.

Those injured are: Mrs. F. R. Rowley, Mrs. Band and Mrs. Wallace Clark.

The pilot of the locomotive struck the sleigh with great force, reducing it to splinters and hurling the women in all directions. Every one of the thirteen women in the sled was killed or injured.

Other members of the party in two other sleds hurried back to the assistance of their unfortunate companions, and the train backed up to aid.

GRAFTERS IN CONTROL.

Sensational Charges Cause Great Stir In Illinois Legislature.

Springfield, Ill., Feb. 2.—An upheaval in the Illinois legislature, possibly rivaling the recent boulding exposures in the legislature of Missouri, may be the outcome of an address made by Representative Frank D. Comerford of Chicago to the students of the Illinois College of Law a few days ago. The general assembly during the day appointed a committee of seven to investigate Mr. Comerford's charges, which are reported as specifically alleging "that the Illinois legislature is a great public auction, where special privileges are sold to the highest corporation bidders and that without respect to party affiliations the 'grafters' seem to be in the majority."

The investigating committee is empowered to bring before it Representative Comerford and cause him to testify as to what he knows of the alleged wholesale corruption.

USUAL FIGHT CROPS OUT.

Postoffice Appropriation Bill Occupies Attention of the House.

Washington, Feb. 2.—The postoffice appropriation bill occupied the attention of the house the major portion of the day. The usual fight on special mail facilities on trunk lines cropped out. Mr. Moon of Tennessee arraigned those Democrats supporting the proposition, charging them with favoring a subsidy which would benefit their selections while at the same time inveighing against the Republican party for its attitude regarding subsidies in general. The bill will be further considered Thursday.

For an hour or more the house discussed proposed legislation looking to the regulation of railroad rates, the principal remarks being made by Messrs. Sharley (Ky.) and Sibley (Pa.).

STATEHOOD BILL DISCUSSED.

Speeches for and Against the Measure in the Senate.

Washington, Feb. 2.—Messrs. Clark of Montana, Dillingham and Teller Wednesday continued the discussion of the joint statehood bill, Mr. Dillingham supporting the measure as it stands and the other two senators contending for amendments and the right of the four territories to be admitted as so many states.

In his reply to Mr. Dillingham, Mr. Teller charged that Vermont had retrograded and quoted figures to show that there had been a falling off in the value and number of farms in that state. Mr. Dillingham replied that this condition was due to consolidation of small farms.

A number of semi-public bills were passed during the day.

TRAIN HITS A STREET CAR.

Six Persons Badly Injured at Grand Rapids, Mich.

Grand Rapids, Mich., Feb. 2.—Six persons were injured, four probably fatally, Wednesday night when a Grand Rapids and Indiana northbound passenger train crashed into a street car at West Leonard street. The street car was tossed fifty feet.

The injured are: Miss Nellie Filkirk, John Quist and Motorman W. C. Gardner, all of May die; Miss Mary Oosling, Nicholas de Young and John Lindstrom. All the injured were residents of Grand Rapids.

Madman Slays Eight Persons.

Victoria, B. C., Feb. 2.—The Japanese steamer Shihano, which arrived Wednesday brought news of a slaying by a madman who ran amuck at a small town in Borneo, swinging a heavy knife. He killed eight persons and wounded seventeen.

# COLDEST OF THE WINTER.

Low Temperature Recorded Over a Large Section of the Country.

Chicago, Feb. 2.—At 1 o'clock Thursday morning the thermometer in Chicago registered 10 degrees below zero, a fall of 5 degrees since 8 o'clock Wednesday night.

The weather forecaster says that the temperature will reach 15 degrees below zero.

Reports from many points in the West and Northwest say that the coldest weather of the winter prevails early this morning.

Reports from the lake region, the Middle West and the Northwest show that a cold wave extends over a wide territory, including Illinois, Kansas, Nebraska, Michigan, Wisconsin, Minnesota, the Dakotas, Montana and the Northwest Territory.

The temperatures range from 10 degrees below zero in Chicago to 30 below in Miles City, Mont.

Among other points where the temperature was below zero are the following:

Milwaukee 10, St. Paul 16, Kansas City 4, Omaha 4, Des Moines 12, Bismarck 20, Calgary 26.

Iowa Man Frozen to Death.

Oskaloosa, Ia., Feb. 2.—Houston Webb, sixty years of age, was frozen to death in a timber Wednesday. He left a wagon to walk half a mile through the fields and was overcome by cold.

PINE TIMBER IN MINNESOTA.

That Now Standing Is Estimated at Over Ten Billion Feet.

Minneapolis, Feb. 2.—The amount of white pine timber standing in Minnesota at present is somewhere between 10,000,000,000 and 30,000,000,000 feet.

In Wisconsin estimates place the number of feet of standing pine at 10,000,000,000 feet. This statement was

made by Secretary J. E. Rhodes, representing the Mississippi and Wisconsin Valley Lumbermen's associations at the session of the Northwestern Lumbermen's association in his interesting talk on white pine. A change in the programme brought out Secretary R. A. Kellogg's paper on "Eastern Washington and Idaho Pine," which paper was heartily applauded. Speaking of the timber of the "Inland Empire" Mr. Kellogg declared that its white pine had all the virtues of the eastern white pine and lacked some of its faults.

Mr. Cliff Millard of Chicago talked on yellow pine and W. H. Collins told about the woods of the Pacific coast.

FATE OF MARY MABEL ROGERS.

Soon to Be Decided by Governor Bell of Vermont.

Montpelier, Vt., Feb. 2.—Whether Mary Mabel Rogers, now occupying the death cell at the Windsor state prison, will die on the gallows next Friday afternoon, as ordered by the court in which she was found guilty of murdering her husband, Marcus Rogers, or be granted a reprieve, while the supreme court is petitioned for a new trial, will be announced at Waterbury Thursday afternoon by Governor Bell.

Wednesday's hearing presented the unusual spectacle of five officers of the law charged with inflicting the death penalty, pleading with the governor to be furnished with a day to be

furnished to the state as well as locally. Light and heat to be furnished at the state's expense.

Nic. Julian, Blue Earth, offered a bill amending the state primary law to the extent of allowing the polls on primary day to remain open a reasonable time after the lawful closing hours, if there are persons in waiting.

Attorneys who wreck the interests

of their clients or resort to blackmail

are dealt with severely in a bill introduced by Representative Miller of St. Louis county. On a preference of charges, the district court is made the tribunal to try the case and, on conviction, a fine of not less than \$1,000 or two years in the state prison is to be imposed.

Governor Bell was urged to delay the execution until newly discovered

evidence could be presented with a petition for a new trial. The petitioners

alleged that Leon Perham, now serving a life sentence for complicity in the crime, had recently confessed that he had lied on the stand, swearing away Mrs. Rogers' life to save himself from the gallows; that according to

Perham's alleged confession, he and not Mrs. Rogers administered the choloform and that there was hereditary insanity in the Rogers family.

Montpelier, Vt., Feb. 2.—Whether Mary Mabel Rogers, now occupying the death cell at the Windsor state prison, will die on the gallows next Friday afternoon, as ordered by the court in which she was found guilty of murdering her husband, Marcus Rogers, or be granted a reprieve, while the supreme court is petitioned for a new trial, will be announced at Waterbury Thursday afternoon by Governor Bell.

Wednesday's hearing presented the unusual spectacle of five officers of the law charged with inflicting the death penalty, pleading with the governor to delay their duties.

Governor Bell was urged to delay the execution until newly discovered evidence could be presented with a petition for a new trial. The petitioners alleged that Leon Perham, now serving a life sentence for complicity in the crime, had recently confessed that he had lied on the stand, swearing away Mrs. Rogers' life to save himself from the gallows; that according to Perham's alleged confession, he and not Mrs. Rogers administered the choloform and that there was hereditary insanity in the Rogers family.

Postoffice Appropriation Bill Occupies Attention of the House.

Washington, Feb. 2.—The postoffice appropriation bill occupied the attention of the house the major portion of the day. The usual fight on special mail facilities on trunk lines cropped out. Mr. Moon of Tennessee arraigned those Democrats supporting the proposition, charging them with favoring a subsidy which would benefit their selections while at the same time inveighing against the Republican party for its attitude regarding subsidies in general. The bill will be further considered Thursday.
